

AP-24® ANTI-PLAQUE TOOTHBRUSH

SYSTEM OVERVIEW

The AP-24® Oral Care System is a revolutionary, scientifically advanced line of oral health care products that helps provide anti-plaque protection.

CONCEPT

An exclusive, patented, anti-plaque toothbrush that works with the AP-24 system of oral care products, designed to promote superior dental health care, including the removal and prevention of plaque build-up. The AP-24 Anti-Plaque Toothbrush incorporates an exclusive, patented channel bristle technology that helps remove 30% more plaque from tooth surfaces.

BENEFITS AND FEATURES

- First toothbrush on the market with patented channel bristle technology.
- Removes up to 30% more plaque than round bristle toothbrush.
- Holds more toothpaste against teeth during brushing.
- Helps fight plaque, one of the contributors to bad breath and cavities.
- Gently massages gums.
- Use with AP-24 toothpastes to reduce plaque build-up.
- Hand friendly shape with grip pads.
- Available in three colors (black, green, white grips) in the 3-pack.
- Soft bristles for brushing comfort

USAGE

Brush after each meal or at least twice a day, or as directed by a dentist or physician.

COMPLEMENTARY PRODUCTS

AP-24 WHITENING FLUORIDE TOOTHPASTE

Brightens and whitens teeth. AP-24® Whitening Fluoride toothpaste lightens teeth without peroxide while preventing cavities and plaque formation. This gentle, vanilla mint formula freshens breath and provides a clean, just-brushed feeling that lasts all day.
