

IN BALANCE PH BALANCE TONER

Your skin has a mind of its own. But now you can make it resilient to what life throws at you with a bioadaptive skin care system that helps your skin adapt to environmental stressors like late nights and pollution and protects against UV—for better, balanced skin every single day. It's so intuitive; it knows what your skin needs before you do. And with clean formulas, you can feel confident about what you're putting on your skin. Make every day a great skin day.

MEET IN BALANCE

Give your skin refreshing hydration after cleansing. This light toner helps your skin stay balanced by restoring it to its optimal pH level while Witch Hazel helps reduce the appearance of pores. This toner is also formulated with a strong moisturising blend featuring Lactobacillus Ferment, Aloe, Sodium PCA, and Sodium Hyaluronate to help strengthen your natural moisture barrier, so your skin is left feeling refreshed and looking its best.

LEARN MORE ABOUT IT

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. When used on the skin, the special properties of these botanicals help your skin adapt to its changing and unique environment so

IN BALANCE PH BALANCE TONER

that it can recover from—and gain resiliency to environmental stressors.

What is the benefit of restoring the skin's ideal pH?

Restoring your skin's ideal pH prepares skin for the next steps of your skin care routine.

What is the benefit of using a pH balancing toner?

pH balancing toners have several important benefits for skin. Good pH balancing toners add a boost of hydration after washing, help diminish the appearance of pores, and balance skin's pH levels so skin is prepped for serums and moisturizers.

How does In Balance support Nu Skin's commitment to become more sustainable?

We have proudly replaced In Balance's tube with one made from 100% PCR (post-consumer resin). In doing so, we will prevent approximately 22 tons of virgin plastic from being produced annually.*
