

MAHALAGANG PAALALA: ANG AGELOC RESET AY HINDI GAMOT AT HINDI DAPAT GAMITING PANGGAMOT SA ANUMANG URI NG SAKIT.

RESET

MEET AGELOC RESET

Stress, erratic work hours, poor sleeping habits, and eating on the run are throwing our body chemistry out of sync. In fact, only 1 in 8 of us has a healthy body chemistry. Body chemistry is the biochemical processes that affect every part of our health. It's time to rethink what being healthy means.

ageLOC Reset is here to help with a daily dose of scientific support. Backed by seven years of groundbreaking, exclusive-to-Nu Skin research, it's powered by anthocyanins—natural health-beneficial compounds found in black currant fruit extract, bilberry fruit extract and black rice extract. This formula features our very own anthocyanin blend, shown to help shift you towards a healthier mode. ageLOC Reset is perfect for today's hectic world because it helps with the effects of your modern lifestyle when combined with healthy eating, regular exercise, and better sleep.**

WHY YOU'LL LOVE IT

- Helps support healthy well-being.**
- Helps support your body's internal biochemical processes.**
- Helps improve the antioxidant defense system, reducing oxidative stress.**
- Helps provide healthy balance of good and bad bacteria in the gut.**
- Features ageLOC technology that targets your core body's internal biochemical processes.**
- Provides our exclusive ageLOC Reset anthocyanin blend, standardized to 215 mg of anthocyanins per serving.

WHAT POWERS IT

Anthocyanins are compounds with great antioxidant effects found in dark purple plants. They have many health benefits, which is why eating a diet rich in anthocyanins is such a smart thing to do.

Because we knew not all anthocyanins are created equal, we set out to discover exactly which ones could provide the health benefits we wanted to target, and we were successful! Our research showed that some specific types of anthocyanins are more effective at supporting our internal chemical processes. We also discovered that consuming the right amount can help provide further support, but the unfortunate reality is, globally, the average adult consumes less than 25 mg per day, which is not nearly enough. ageLOC Reset proudly contains our exclusive ageLOC Reset anthocyanin blend ideally sourced from three superfoods: black currants, bilberries, and black rice. That's 215 mg of support to help you reach your health goals.

HOW TO USE IT

Take two softgels anytime of the day.

TRY THESE WITH IT

- **LifePak®**—nutritional foundation consisting of essential vitamins, minerals and antioxidants for general wellness.
- **ageLOC® Y-Span**—influences multiple aging defense mechanisms to provide broad spectrum nutritional benefits.**
- **Pharmanex® ProBio PCC**—helps relieve symptoms associated with occasional gastrointestinal (GI) discomfort, occasional bowel irregularity, diarrhea, and other common digestive and non-digestive discomforts.**

LEARN MORE ABOUT IT

Is this a weight-loss product?

Definitely not! ageLOC Reset does not cause weight-loss, nor does it replace exercise. Instead, it helps supports the benefits of a healthier lifestyle when combined with good nutrition, enough sleep, and regular exercise.**

I'm active, I'm healthy! Why do I need this product?

Think of your health as being a spectrum—with positive choices on one end and less positive on the other, and we're always moving back and forth within that range. ageLOC Reset can help us in our pursuit of enjoying more time on the healthy side.

What are the benefits of taking ageLOC Reset?

Our years of proprietary research and scientific query have led to the discovery that ageLOC Reset can help reset and shift your body towards a healthier mode.** Combined with healthy eating, regular exercise, and better sleep, ageLOC Reset helps maintain a healthier well-being.**

Who should take ageLOC Reset?

Our research shows that every adult will benefit from taking ageLOC Reset daily. However, people who are pregnant, lactating, or taking prescription medication should consult with their physician before use.

What kind of research went into ageLOC Reset?

Seven years of our own proprietary research went into formulating ageLOC Reset. We discovered the concept, unlocked the science, and then analyzed different anthocyanin plant extracts to discover which are most effective at supporting certain aspect of your health. From here, we began conducting preclinical and then clinical studies—following our rigorous 6S Quality Process to maintain quality, efficacy, and safety controls throughout every stage, of course. We're passionate in our pursuit of scientific discoveries that lead to the creation of innovative, high-quality products.
