LumiSpa® 

INPUT
super smart skincare.

OUTPUT
the skin of your dreams.

ageLOC.
LumiSpa® iO

Say Hello to ageLOC LumiSpa iO, your skin's coach.

The ageLOC LumiSpa iO system is a smart one-of-a-kind beauty device with intelligent coaching that helps you personalize your skincare regimens, through the Nu Skin Vera app.

In just two minutes, twice a day, you'll experience gorgeous, glowing, selfie-ready skin!

That's the power of personalization and beauty of connectivity!

Why You'll Love It

1 device, 2 minutes, 7 skin benefits.

Delivers brighter, healthier, more youthful-looking skin.

Skin feels softer and smoother after just one use.

Removes dead skin and promotes dynamic skin renewal.

Gentle enough for twice-daily use on the face, neck, and décolleté.

Microbiome friendly cleansing.

Energizes skin for a fresher, smoother, more rejuvenated complexion.

Deeply cleanses and de-stress the skin.

Goes Beyond Cleansing

ageLOC LumiSpa iO goes beyond cleansing with proprietary Micropulse Oscillation technology. It is a pore-purifying action that draws out dirt, oil and makeup, pollutants and lifts them away without irritating the skin.

Level up your skincare regimen with innovative IoT technology through Vera App

HEY, WHAT'S IoT?

IoT literally means “internet of things.” For our customers, it means ageLOC LumiSpa iO includes Bluetooth that allows the device to connect with the Nu Skin Vera® app on your phone. This technology unlocks a new world of possibilities and experiences.

Scan to download

Personalized, Customized Routines

Send and save personalized treatments—phone to device.

Create your own treatments by adjusting the time and facial area.

Tap into the smart IoT technology to guide your product picks with preset or personalized routines.

Enjoy ongoing optimization through both app and device updates.

As unique as the skin you're in.

Intelligent Coaching

With smart sensors and a connected app, get intelligent guidance about your treatment pressure, movement, and coverage.

Get personalized product recommendations that help you reach your personal skin care goals.

Synchronized tutorials and how-to videos lead you every step of the way to youthful, healthy-looking skin care success.

Your skin care superpower at your fingertips.

Witness your Transformation

A selfie timeline to see your skin's progress over time—fast results week-to-week, month-to-month, or any day in between.

Reorder reminders so you don't run out.

Weekly usage trends, insights, and schedule reminders to keep you on beauty task.

Rewards, discounts, and exclusive access for tracking your progress.

See, remember, and celebrate.

Proven Demonstrable Results

Skin benefits!

In a 12-week clinical study, clinical grading noted that 100% of the subjects who used ageLOC LumiSpa iO experienced improvements in the skin.

Purified skin
92%

Softness
100%

Reduced pore appearance
54%

Smoothness
100%

Visibly improved skin firmness
78%

Radiance
92%

Clarity
92%

Microbiome Friendly

A third-party clinical research organization was commissioned to conduct an investigative research study to understand the impact of the ageLOC LumiSpa iO system on the facial skin's microbiome.

	NORMAL TO COMBINATION		DRY		ACNE/OILY	
	Pre	Post	Pre	Post	Pre	Post
Cutibacterium acnes	36.92%	47.26%	44.29%	45.90%	51.94%	60.30%
Staphylococcus epidermis	1.44%	0.98%	4.58%	6.37%	7.91%	5.75%
Streptococcus_u_s	10.34%	3.34%	0.74%	0.56%	0.72%	0.54%
Micrococcaceae	1.67%	2.53%	1.75%	2.10%	1.54%	1.54%

From the study, it shows that there was little variation between individual's microorganism populations at before use versus post-use, illustrating that the ageLOC LumiSpa iO system did not negatively alter the skin's microbiome for these subjects.

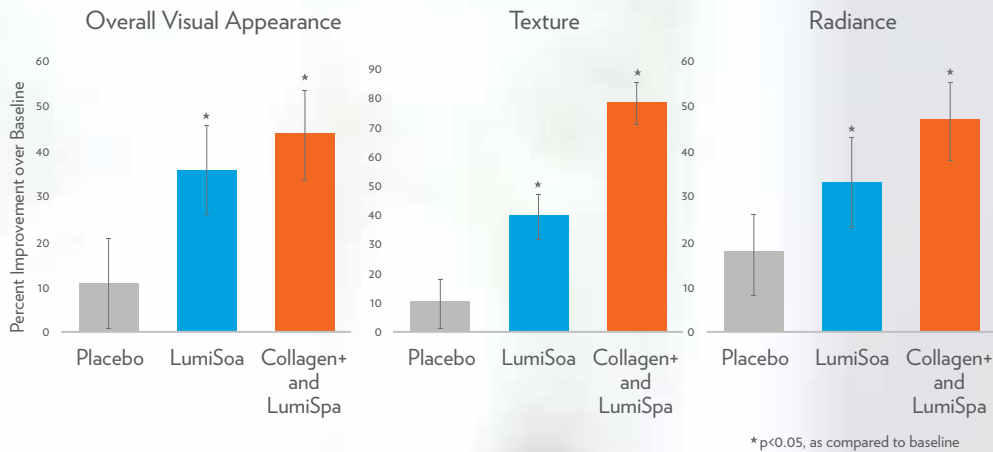

Proven to be Better Together

Proven holistic beauty, inside and out with Inner Focus™ Collagen Plus.

In a clinical study, taking Inner Focus™ Collagen Plus prepares the skin for improved results and is clinically proven to nearly double the visible texture benefits compared to a LumiSpa iO regimen alone.

Dermatologist Grading at 4th Month

43% visual improvement in overall appearance

79% improvement in texture

47% improvement in skin radiance
